

Aquastack Marina – One-stop and you are cruising

If owning a boat appeals but the maintenance puts you off, then the new boat and trailer stacking facility at the Australian Marine Complex (AMC) could have you cruising the waters without the fuss.

Aquastack Marina is a secure, one-stop-shop for all boating enthusiasts. It provides repair, servicing, maintenance and boat and trailer stacking, as well as launch and retrieval services, for boats sized 18 - 33 feet.

Likened to a valet service for boats, Aquastack's crew can take all the hard work out of owning a boat so owners can enjoy more time on the water.

Aquastack Marina's Director Luke Clayton said they offer clients a complete package, so all they have to do is get in and turn the key.

"Not only do we offer boat storage, our team and I can organise and deliver your boat to a nominated boat ramp. We will then pick it up, wash it down, flush the engines and stack it away," Mr Clayton said.

"Our quick turn-around time means clients can call us one hour before they want to head out and we will have their boat ready for them to hit the water.

"We have ice, drinks, fuel and can even organise catering."

Aquastack offers complete packages – gold and platinum, which can be customised to suit every lifestyle and budget.

Unlike other boat storage facilities, Aquastack's revolutionary stacking system allows your boat and trailer to be stored in its purposely built racking system.

"Our purpose-built forklift can carry up to 25 tonnes and we can fit 220 small, medium and large sized boats and trailers with ease," he said.

A security coded gate system for individual clients offers a secure location as well as easy access in and out of the marina.

Other benefits include some protection from WA's harsh weather conditions, reduced maintenance costs, and less depreciation for your boat.

Other than being boat crazy, the crew at Aquastack have more than 60 years boating experience between them.

Aquastack is only minutes away from the Woodman Point Boat Ramp and conveniently located close to other popular Perth boat ramps in East Fremantle and Rockingham. ■

A sneak peak at what Aquastack Marina's Platinum Package offers:

- 24/7 on-site security.
- Boat and trailer storage.
- Option of boat storage with no trailer.
- Unlimited boat valet.
- Fuel topped up before every trip (charged to account).
- Engine pre-start check before every trip.
- Boat wash down after every trip.
- Engine flush after every trip.
- Custom designed packages to cater for every lifestyle and budget.
