Tutt Bryant Crane Hire: Assembly of Australia's largest non-superlift, non-ringer crane (2006)

In 2006 Tutt Bryant Crane Hire assembled and tested its 650 tonne capacity Hitachi-Sumitomo SCX6500 Crawler Crane in the Common User Facility (CUF) Assembly Area.

The crane is the largest non-superlift, non-ringer crane based in Australia. It is equipped with a main boom with the capacity to reach up to nearly 110 metre or 68.5 metre when used in a tower configuration with a tower jib of up to 79.25 metre.
